Experience

UI UX Designer | Intercargo Logistics Simplified

November 2024 – Present, Islamabad, Pakistan

- Led the end to end UX design of ODDA, transforming a manual email based shipment process into a self service platform, reducing manual coordination by approximately **25%**.
- Developed a reusable Figma based **design system** with **200+** components, reducing UI inconsistencies and accelerating new feature design delivery by **15–20%**.
- Improved new user activation rate by an estimated **20–30%** through simplified onboarding and task based user flows.
- Digitized quote requests and payment flows, reducing sales team manual follow ups by approximately **15%** and saving an estimated **5–8** operational hours weekly.
- Redesigned the booking workflow from **7+** steps to **4** structured stages, reducing user drop off by an estimated **10–15%** during quote submission.
- Collaborated closely with product, operations, and engineering teams to translate business goals into user centered features, ensuring alignment across the product lifecycle.
- Conducted UX research and usability testing to validate workflows and reduce friction across the booking and tracking experience.
- Led the UX direction for new concepts and features, ensuring the ODDA platform evolves with user needs and business goals.

Key Projects Include

- Odda Courier: (Customer App, Driver App and Website)**, resulting in a **4.0★** rating across App Store and Google Play.
- Intercargo: 3.4 ★** rating (Company Website)
